

Mister sun

Brigitte Bardot

Mister Sun stay a while
Summer is here you've made me smile.
When your rays come to me
I feel warm inside stay with me.

Mister Sun you have ways
Of putting me into a dizz.
When you shine on the sea
You turn into gold stay with me.

When your rays kiss my heart - all my heart sighs.
All alone on the sand I'll close my eyes.

Mister Sun you're so far
Please help me find my wishing star.
Only you understand
How lonely I am on the sand.

You take me far away from noisy crowds.
When I just watch your play I'm on the clouds.

Mister Sun stay a while
Don't go away please stay with me
Please stay with me.
Please stay with me.
