Mister sun

Brigitte Bardot

Mister Sun stay a while Summer is here you've made me smile. When your rays come to me I feel warm inside stay with me.

Mister Sun you have ways
Of putting me into a dizz.
When you shine on the sea
You turn into gold stay with me.

When your rays kiss my heart - all my heart sighs. All alone on the sand I'll close my eyes.

Mister Sun you're so far Please help me find my wishing star. Only you understand How lonely I am on the sand.

You take me far away from noisy crowds. When I just watch your play I'm on the clouds.

Mister Sun stay a while Don't go away please stay with me Please stay with me. Please stay with me.
