

# Big Fat Bass

Britney Spears

Big fat bass  
The big fat bass

I can be the treble Baby  
You can be the bass  
You can be the bass  
You can be the bass

Hey, you see down on the floor  
I want you to take me higher  
Till I can't take it no more

(It's getting bigger, the bass is getting bigger)

And now, you see up on the sky  
I was rocking the bottom  
Now look at me I can fly

(It's getting bigger, the bass is getting bigger)

I can be the treble Baby  
You can be the bass  
You can be the bass  
You can be the bass

I can be the treble Baby  
You can be the bass  
You can be the bass  
You can be the bass

(It's getting bigger, the bass is getting bigger) (4x)

Hey, you see out in the night  
Wanna go out dancing  
So I can feel alright

(It's getting bigger, the bass is getting bigger)

Yo, take me out to the lights  
I wanna have me a good time

The bass is feelin' nice

(It's getting bigger, the bass is getting bigger)

I can be the treble Baby  
You can be the bass  
You can be the bass  
You can be the bass

Yeah  
Yeah  
Yeah  
Y'all better get ready for the kick drum  
For the kick drum, for the kick drum

Y'all better get ready for the kick drum

For the kick drum, for the kick drum

It's a kick drum, come and get some  
The sound that's rocking your system  
When it pounds, it cause an addiction  
Y'all better have a prescription  
Me and Brit got the whole club trippin'  
They sit and wait and listen

For the kick drum, for the kick drum  
For the kick drum, for the kick drum

For the big big fat fat bass  
Rocking all in your face  
Vibration got the place  
Right now let's get crazy

Here we go, Here we go  
Everybody in the place get frantic  
This beat right here's beat is gigantic

(It's getting bigger, the bass is getting bigger) (4x)

I can be the treble Baby  
You can be the bass  
You can be the bass  
You can be the bass
