

U Build Me Up

Bro'Sis

Ooooh...

Say, hey, hey, hey...

See, cigarettes and coffee ain't good for you
No I'm on my own and it's all I do (all I do)
Seem to've lost my appetite over you
Now I need to chill but my mind won't keep still
Everyday, everyday, everyday...
Confusion is the only word left I know
Wish I had the answers why you blow hot then cold (then call)
Illusion never ending deceivin' me (me)
First thing you do, second you don't
Everyday, everyday, everyday...

Chorus

You build me up - eey you build me up
You tear me down -you tear me down
You're so elusive, it's not conducive, no, no
For us to be one too true we be two
Me and you, and you, and you...

So many of the fakers and chancers play (oh, yeah, yeah)
You know you never get that from me, no way (no way)
I crucify, you know I rectify
No, no, don't ask me why (don't ask me why)
For you I live or die (I'm dying)
But I need no jacket, but a punch I will pack it
Every time, every time, every time...
Stop reckoning my love ain't enough for you
Now you're understanding the things I do (understanding the things I do)
I die trying it's a riot and no taboo
I need to lick it but you never stick it
Too long, too long, too long...

Chorus

You build me up -you build me up
You tear me down -you tear me down
You're so elusive, it's not conducive, no, no
For us to be one too true we be two
Me and you, and you, and you...

No-oh...aah...

Pa, da, da..., aah... pa, da, da...

No, no, no, no, no...

You build me up

You build me up -you build me up
You tear me down - and you tear me down
You're so elusive, it's not conducive, no, no
For us to be one too true we be two
Me and you, and you, and you...

Chorus

You build me up - (ooh)you build me up
You tear me down -you tear me down
You're so elusive, it's not conducive, no, no
For us to be one too true we be two

Me and you, and you, and you...

You build me up, yeah
