

## Stand Up

### Broken Bones

Listen to the things you say  
About the things you don't understand  
Trying to be different, it's your fault you reprimand  
'Cos I don't wanna be like you, I don't wanna look like you  
You've gotta fight for what you want, stand up for what you believe  
A family at eighteen, the media call it normal  
So fuck this bloody system and don't be so formal
