In Love

Brooke White

It?s like candy land When you hold my hand Anywhere you stand I wanna be next to you

Give me one more taste Of your sweet embrace Lipstick on your face After we kiss goodnight

And you?re mine, all mine And it?s fine with me Wanna take your time So I can make you see With me, how happy we?ll be

So fly away Million miles away And there we?ll stay In love In love

Just to hear the sound Of your voice around Paradise, I found When you speak my name

Wanna stay like this Wrapped up in your bliss Never gonna miss a single day Without the chance to say I love you

And as time goes on

And we both grow old You?ll always be my sun When the world gets cold You?ll always know, you?re my only one

So here I come for you Nothing no one can do To keep me away from you

This love has no end Never gonna save me ?til eternity is through I?ll keep on loving you Forever and ever

So let?s head away We can leave today Let?s go find a space Our own little place Where we can stay Where we can stay In love In love So let?s fly away Million miles away And there we?ll stay In love In love In love
