Days get long but I don't get far, spent last night in some low life bar

Found her memory in some Mezcal haze, lost my mind while the guitar plays

R: I'm gonna carry this burden way out west

Find a way to lay this hurt to rest

2. Left her standing in a tear-stained dress, cursed the day that I confessed

Wayward sins of a mortal man, watched the ring come off her hand

Looking back on all I've lost, price I've paid ain't worth the cost

I'll run this road until it ends and maybe find my way back to her again
