

# Leave Me Alone

Bros

Love is a two way street now  
And to people got to know where to meet each other  
The fast lane is a dead man's game  
Do you really want to be enveloped in pain now baby  
Let me tell you

Why don't you, why don't you, why don't you  
Why don't you just leave me alone, leave me alone

The wanderlust don't go with trust  
You're sitting down smoking saying don't worry about a thing  
Your sully games just drive me insane  
And I really don't care about taking the blame  
Let me tell you now

Why don't you, why don't you, why don't you  
Why don't you just leave me alone, leave me alone

Leave me alone  
I've loves, I've hated there's some much time that's been wasted  
Thought the days thought the nights  
The crazy telephone fights

Why don't you, why don't you, why don't you  
Why don't you just leave me alone, leave me alone.
