

Ali Boombaye

Brother Ali

Ali splatter opponents in a matter of moments
With hazardous components
When I'm walkin' with eyes red battlin' omens
Fatter than Conan the Barbarian with the [?] spare hand
Never vegetarian, I walk with heavy hands
I'm a scary man
Split ya' spine in two places
Known for chokin' MCs with their own shoe laces
Fools take this for jokes but the wise take heed
I make ya' insides bleed for what I transcribe or need
And I believe [?] that you would need a newer breed of true MC's
To influence these with what you do with on beats
The melody deprived blessed in disguise
Cuz' now you write my name in smoke and spell it in the skies
A-L and I, pronounced "Ali," not "Alley" or "Ahlay"
And if I'm in battle mode ya' add the term "boombaye"
If I'm in battle mode ya' add the term "boombaye"
If I'm in battle mode ya' add the term "boombaye"
Man if I'm in battle mode it's Ali Boombaye

When I'm in battle mode ya' add the term "boombaye"
Ali kill 'em
That means Ali Boombaye
When I'm in battle mode ya' add the term "boombaye"
Ali eat 'em up
That means Ali Boombaye
When I'm in battle mode ya' add the term "boombaye"
Ali kill 'em
That means Ali Boombaye
When I'm in battle mode ya' add the term "boombaye"

Speakin' like Cochese
My [?] 'll make your bones freeze like trophies
You got a choice to make like Sophie
And you don't know me
Or anything about me
I'm rowdy son
I'll puncture one of your lungs with house keys
I'm on ya' like white on rice
Spots on dice
Hip hop vice
Only Ali rock that nice
Take cops' advice and put ya' hands in upper regions
Scarin' y'all like Steven
Only the best leave breathin'
I'm seein' things that ain't been seen yet by the average eye
We can battle at the dinner table
Let the cabbage fly
Amplify your fear as ya' step into my forest
Cuz' I'm hungry like the plant in the Little Shop of Horrors
Got you anticipatin' waitin' for my chorus
You tryin' to get saved by the bell like Zack Morris
All you saw is me sayin' what you ain't think I'd say
And the crew got my back screamin' "Ali Boombaye"

When I'm in battle mode ya' add the term "boombaye"
Ali kill 'em
That means Ali Boombaye
When I'm in battle mode ya' add the term "boombaye"
Ali eat 'em up
That means Ali Boombaye
When I'm in battle mode ya' add the term "boombaye"
Ali kill 'em
That means Ali Boombaye
When I'm in battle mode ya' add the term "boombaye"

At all cost
Ali speak the language of DOS
C semicolon backslash'll leave your wack ass lost in the sauce
What kinda mind frame are y'all in?
I try hard for my god until I die hard with my squadron
Left cipher's revolvin' like the Wheel of Fortune
From Jew town and the Chi to the swap meet on [?]
Causin' [?] until dawn I write
And drop jewels like a crackhead in a ghetto pawn shop
I elevate the mundane like a Chi-town train
And tellin' ya'll sound plain until I found Jane
And they say I'm so vain for a little no-name
But yo I blow my own brain like I'm Kurt Cobain
And I'm feelin' no pain
Must be laced with novocain
I graduated from the lunar to the solar plane
It bes Brother All if you ain't know the name
Ali Boombaye if you ain't know the name

When I'm in battle mode ya' add the term "boombaye"
Ali kill 'em
That means Ali Boombaye
When I'm in battle mode ya' add the term "boombaye"
Ali eat 'em up
That means Ali Boombaye
