

## New Partner Waltz

Brothers Osborne

You're waltzing with me looking over my shoulder  
That gleam in your eyes tells me I'm losing you  
You're waltzing with me but your heart's with another  
You'll have a new partner when the next waltz be here.

We came to the dance together  
But I see that I'll be all alone when it ends  
You're waltzing with me looking over my shoulder  
You'll have a new partner when the next waltz be here.

We came to the dance together  
But I see that I'll be all alone when it ends  
You're waltzing with me looking over my shoulder  
You'll have a new partner when the next waltz be here...
