## **New Partner Waltz**

## **Brothers Osborne**

You're waltzing with me looking over my shoulder That gleam in your eyes tells me I'm losing you You're waltzing with me but your heart's with another You'll have a new partner when the next waltz be here.

We came to the dance together But I see that I'll be all alone when it ends You're waltzing with me looking over my shoulder You'll have a new partner when the next waltz be here.
