

Winds of Change

Bruce Dickinson

When you think that it's all over and you want your
ragged mile
The winds of change are blowing all around
Stop and look, you're not the only one on the road out in
the night
Take some time to find your brother, it does take time to
get it right

CHORUS:

Winds of change blow over us (3x)
Winds of change don't change us... at all

In a world of desperation where man struggle to be free
There's a truth and inspiration to break the chains of
you and me
Looking round we have our visions of what is and what
could be
And in the heat of passion, Oh, you can't be set free!

REPEAT CHORUS

I think I wanna spend my life with you
I think, if we can make it, we can get through
I feel I've known you before, I think you know what I
mean
I think I wanna spend my life with you

SOLO

REPEAT CHORUS (2x)
