```
G
Carry me, carry me away
Where the nights aren't so cold
Carry me, carry me away
Where the streets are of gold
And my heart will sing 'cause of you, my king
                 G
Want you carry me away my Lord
Run with me, let's run away
To the gates made of pearls
Run with me, let's run away
Where my heart knows no fears
                   С
           Emi
And with my hands raised up 'cause of you, jesus
                  G
Won't you carry me away, my lord?
    D Emi
                G
Hold my hand as I walk through this valley
              Emi
I know that my heart is safe in your hands
    D Emi
               G
Lift me up as we run through the mountains
             G
Foryou are my strength and shield
           Emi
Hallelujah, hallelujah
                D
Hallelujah, hallelujah
                                     G
                        C
And with my hands raised up 'cause of you, jesus
Won't you run with me away, my lord?
```
