

# I Thought I'd Seen Everything

**Bryan Adams**

I like the way we are - I love what we've become  
When i'm in your arms - I know i've found the one  
I love your kiss me mouth - and your static touch  
Its just the way you are - that makes me feel so much

No one could ever know - what we're like alone  
Rollin' round like rain - we're a midnight storm  
Like a river rising - I feel it thru your skin  
When we're together - I never want it to end

I thought I'd seen everything - til I saw you  
I thought I'd been everywhere - til I'd been with you  
I thought that everyone knew what I knew  
I thought I'd seen everything - til I saw you

I like the way we are - like a raging fire  
Burning up the night, burning with desire  
You're such a sweet temptation - you know I can't resist  
Electricity, hey every time we kiss
