

The Feeling

BTOB

My heart beats from the start
It's so good
I've never doubted even a little
It's you
Girl when I'm with you I don't know why
I get this feeling like I'm so high
Up in the sky I feel so alive
Feel so alive

Until this path ends
Will you hold my hands tight?
As if we're flying in the sky

A good feeling
Past the point of fluttering, a hot feeling
Farther and higher than space
My feelings have grown, I don't hate it
Because it's you

The feeling
As if it'll explode, I feel overwhelmed
Every little sound of your breath
I hope it'll never change, that's what I hope
Just that alone gives me the feeling

Goodbye to all the lonely days of the past
From now on, I'll split all of me into two
Go wherever you wanna go, go wherever you wanna go
On this map with no explanation
We're not afraid even without a compass, it's a new start

Do you feel the way I do?
Now I feel the way you do
Everything you do seeps inside of me
I have no worries because we have each other

You fill up my heart but you enter in even more
You come in hard, love ya
Yes, this is a good feeling
Hold me tighter

A good feeling
Past the point of fluttering, a hot feeling
Farther and higher than space
My feelings have grown, I don't hate it
Because it's you

The feeling
As if it'll explode, I feel overwhelmed
Every little sound of your breath
I hope it'll never change, that's what I hope
Just that alone gives me the feeling

Like the pure morning dew, oh no
Girl I've never ever felt like this before
You're the only one that can make me feel this way
I know for sure

You'd better love me I'll never make you lonely

The feeling
Past the point of fluttering, a hot feeling
Farther and higher than space
My feelings have grown, I don't hate it
Because it's you

The feeling
As if it'll explode, I feel overwhelmed
Every little sound of your breath
I hope it'll never change, that's what I hope
Just that alone gives me the feeling
