

I Think I'm Going To Like Loving You

Buck Owens

I like holding you and I like squeezing you
I like having you around and I like teasing you
I like kissing you and I like hugging you
But most of all I think I'm a gonna like loving you
Each morning when the sun peeps through my window
The thought of you makes getting up a breeze
Knowing you has given me another life to live
And all my me's have been replaced by we
And I like holding you...

(Since the day we met we been so happy walking hand in hand beneath the sun
Now I found the brand new feeling going deep inside
And it's plain to see the best is yet to come)
And I like holding you...
But most of all I think I'm a gonna like loving you
