

# When The Love Has Gone

Bucks Fizz

Can you find the time to say "I need you"?  
'Cause I hope you find a way, I miss you  
Remember yesterday  
And how we used to say  
That...

When the love has gone  
We should not keep holding on  
Maybe both of us were wrong  
'Cause it just enhances wasted chances

When the love has died  
And there's nothing left inside  
Can we say we really tried?  
Should we carry on  
When all the love has gone?  
When all the love has gone?  
When all the love has gone?

And so your only crime is being sorry  
Well now is not the time, babe, to worry  
Remember yesterday  
And how we used to say  
That...

When the love has gone  
We should not keep holding on  
Maybe both of us were wrong  
'Cause it just enhances wasted chances

When the love has died  
And there's nothing left inside  
Can we say we really tried?  
Should we carry on  
When all the love has gone?  
When all the love has gone?  
When all the love has gone?

When love is lost  
Won't be for long  
It's over

When the love has gone  
We should not keep holding on  
Maybe both of us were wrong  
'Cause it just enhances wasted chances

When the love has died  
And there's nothing left inside  
Can we say we really tried?  
Should we carry on  
When all the love has gone?
