Tell me how to keep your love You know how I need your love Tell me how you keep the love Within your heart from me Don't you know that I love you Let me show why I'm true blue When I know our love is true Don't keep your love from me If you would say to me today The time for love is now Could I sway your love my way Then I say tell me how Tell me how to keep your love You know how I need your love Tell me how you keep the love Within your heart from me

If you would say to me today The time for love is now Could I sway your love my way Then I say tell me how Tell me how to keep your love You know how I need your love Tell me how you keep the love Within your heart from me Tell me how you keep the love Within your heart from me
