

# You and I Are Through

**Buddy Holly**

You said that you were leaving me  
You were gonna let me be  
But now I find you here

I loved you, but don't you love me too?  
But you said I'd never do  
Now you and I are through

I loved you then my darlin' I loved you every day  
But it seems my darlin' your love just fades away

You loved me but I just don't care  
About the new love that I'll share  
And you and I are through

You said that you were leaving me  
You were gonna let me be  
But now I find you here

I loved you, but don't you love me too?  
But you said I'd never do  
Now you and I are through

I loved you then my darlin' I loved you every day  
But it seems my darlin' your love just fades away

You loved me but I just don't care  
About the new love that I'll share  
And you and I are through

I loved you then my darlin' I loved you every day  
But it seems my darlin' your love just fades away

You loved me but I just don't care  
About the new love that I'll share  
And you and I are through
