

We know where we wanna go  
But we can't tell  
On our own how to navigate  
Our way through hell

Sometimes when you wake up  
(Sometimes wake up lonely)  
You feel alone  
Somehow we get over it  
(Somehow keep it going)  
And you go on

Ahhh  
That's alright  
Ahhh  
We're doing fine

They say there's a part of us  
We can't explain  
Please say you'll do anything  
To make me stay

Being a human  
Being an animal too  
Being in a cage and  
Being a living zoo

Being a person  
Being an animal too  
Being all alone and  
Being all me and you

Cause we're lions in our cages  
And tigers in tiny spaces
