

## Reasons

**Built to Spill**

Come through me  
You arrive and I'm on fire  
Subdue me  
To explode that you inspired

So groovily  
Second episode of all smiles  
Let's make a movie  
In the name of all great liars

Improvising, Kaufman style

They are all reasons to me  
They are all reasons to be  
They are all reasons to see  
They are all reasons to me

How the hell do you do this?  
Change the colors, shapes, and size  
I'm clueless  
Not one thing I recognize, so foolish

Every now's a big surprise  
Help me to get through this  
Stay with me until I die  
There's nothing else i wanna try

They are all reasons to me  
They are all reasons to be  
They are all reasons to see  
They are all reasons to me

They are all reasons to me  
They are all reasons to be  
They are all reasons to see  
They are all reasons to me
