

# Angel in the Sky

Bun B

[Chorus:]

There's an angel in the sky watching over me (2x)

[Verse 1:]

They say it's always darkest before the dawn and that you don't know what you had until it's gone I thought I knew what I had but I was wrong and that's why I gotta write this song now come on now come on say man I thought it would of been a long time for us and many more years on the grind for us I thought the future held a lot for us both and it was brighter we were super tight but finna be super tighter I guess I just assumed we had more time for us to make more music and write more rhymes but never in my life could I ever have seen that I would ever have to lose the other half of my team (for real) and take away the glitter the gold and the gleam say man I wonder to myself what does it all really mean nothing without the people you love say man I miss my brother but I know he's looking down from above and that's an angel

[Chorus:]

There's an angel in the sky watching over me (2x)

[Verse 2:]
