

Her Bones In The Sand

Bury Tomorrow

GO!

I split the ocean waves
I carved a path right through you!
The sea has washed away
Discarded memories!

Searched the sea and your not here, your not here
In the sand we lay
Your not here now, your not here.

OHHH!

The anchors...drag down.
Your final rest
(The ocean floor)
I'll never rest until you're found
and the tide drags down!

BAABBYY!

OHH!

In solitary,
I've searched beneath the tide,
Too many times,
I've failed my bride!
I've searched beneath the tide,
Too many times.
I've failed my bride.
I've fought against the tide,
too many times i've felt this!

Searched the sea and you're not here, you're not here!
In the sand we lay
you're not here now, you're not here!
Searched the sea and you're not here, you're not here!
(And now she's gone!)
And now she's gone!
(And now she's gone!)
And now she's gone!

Her bones in the sand
She said she knew it was time
Her bones in the sand
She said aah!
She said she knew it was time!
