

# Loneliness Is a Killer

Bush

I know what you feel  
I know what you love  
I see through your eyes  
They shine like suicide  
I know that you hurt  
A thousand reasons to implode

With all your suffering  
You've been so far from yourself  
So someone else  
This loneliness is a killer  
This loneliness is a killer  
This loneliness can kill  
It's a killer

See you in the sky  
I've seen you on the moon  
Now the color of your rainbow  
It's disappeared  
We're all see through  
I feel you falling  
It's like there's nothing I can do

With all your suffering  
You've been so far from yourself  
So someone else  
This loneliness is a killer  
This loneliness is a killer  
This loneliness can kill  
It's a killer  
It's a killer  
This loneliness can kill

Within you  
We can find a way within you  
Without you  
Empty feelings without you  
I don't want to bring you down  
I don't want to bring you down  
I don't want to bring you down

You've been so far from yourself  
So someone else  
This loneliness is a killer  
This loneliness is a killer  
This loneliness can kill  
It's a killer  
It's a killer  
This loneliness can kill  
It's a killer  
Killer  
Killer
