

## Promises

Buzzcocks

Ah loving you is easy you are on my side  
We play the game strictly to our rules  
We led the field a love affair  
Which made all other lovers fools

Oh  
How can you ever let me down  
How can you ever let me down  
How can you ever let me down  
These promises are made for us

We promised that we'd always have time for each other  
Whenever I needed you'd be there  
We promised to be true there'd be no other  
We promised that for ever we would care

Oh  
How can you ever let me down  
How can you ever let me down  
How can you ever let me down  
These promises are made for us

We had to change  
But you stayed the same  
You wouldn't change  
Oh what a shame

Cos loving you's not easy you're not on my side  
We play a game with two sets of rules  
We lead the field in a love affair  
Ah strictly meant for fools

Oh  
Why did you ever let me down  
Why did you ever let me down  
Why did you ever let me down  
Those promises were made for us

You never have any time for me  
Whenever I need you you're not there  
You've never been true and it's plain to see  
The fact is you never really cared

Oh  
Why did you ever let me down  
Why did you ever let me down  
Why did you ever let me down  
Those promises we made for us
