Sound Of A Gun

Heading for bad weather Hard rain is gonna come Everybody shakes to the sound of a gun

You might think you're clever This thing will strike you dumb Everybody shakes to the sound of a gun

You can live forever Just like everyone Everybody shakes to the sound of a gun

Bullets flying everywhere What they hit they don't care A sonic sound is in the air

This time it's now or never Like a rabbit on the run We could live together The time has got to come Everybody shakes To the sound of a gun Buzzcocks
