

## Montmartre

BZN

On the Montmartre  
Along Place du Tertre  
The little old cafés to please you  
Sitting there and smile, or to rest for a while  
Watching the young folks, who're passing you by

Artists and painters  
Along Place du Tertre  
They'll make you a mem'ry for ever  
Don't even move your hands  
Just to give him a chance  
The picture he's painting, will really be French

We love you Montmartre  
Even by darkness, a painters delight  
We come to see you, year after year, by day, by night

We love you Montmartre  
Even by darkness, a painters delight  
We come to see you, year after year, by day, by night  
Even by storm and by rain  
We hope we'll see you again

High on that mountain  
Along Place du Tertre  
Where deep in the night life is easy  
Where they say, when you go home  
"Au revoir et bon voyage"  
We're sorry to say "Goodbye and so long"

We love you Montmartre  
Even by darkness, a painters delight  
We come to see you, year after year, by day, by night

We love you Montmartre  
Even by darkness, a painters delight  
We come to see you, year after year, by day, by night  
Even by storm and by rain  
We hope we'll see you again
