

# Baby I Need Your Love

C.C. Catch

I had too much to dream babe  
Let's do it again  
That's what my baby is made for  
Baby, be my friend  
When girls will stick together  
They're talking about boys  
What does it take to win your love  
Don't wanna be your toy

Baby, I need your love  
Never give you up for a one-night shot  
Baby, you're so hot  
Never give you up for a one-night love  
Meet me in another world, my baby  
In a world, a world of love  
Meet me in another world, oh maybe  
I'm not an one-night shot

Come step inside my rainbow  
Deep - and if you can  
I'll give you all - I'll be your woman behind the man  
Whenever you're away love  
I make it through the night  
What does it take to win your love  
Oh baby hold me tight
