

I Want to Rock

Cab Calloway

I want to rock, just rock
If the feeling is fine
Wouldn't it be fun for each one to rock all of the time
I want to rock, just rock
It's a pleasure to swing
Come and join the crowd, shout out loud
While you're into the thing
Just stomp your feet
And clap your hands
so come on, begin
We're gonna swing and sway till that great day
So lace up your shoes
Throw 'way your blues

I want to rock, just rock
It's so easy and free
Take a little bow, step on out
Come and rock it with me

Oh, rock it, rock it, rock it, brother Calloway)
Hold the rock here
(With this little break
then cut on out)
Solid, boys, that beat
I want to rock, just rock
Yes, the feeling is fine
Wouldn't it be fun for each one to rock all of the time
(Beat that jam on out)
I want to rock it and a rock it and a rock it and a rock it
It's a pleasure to swing
Come and join me crowd, shout out loud
Rock is feeling the thing
(Oh, rock it, pa)
You stomp your feet
You clap your hands
So come on, begin
We're gonna swing and sway till that great day
So lace up your shoes
Throw away your blues
Rock, rock
It's easy and free
Take a little bow, step on out
Come on! Rock it with me
