

Bad Mother Boogie

Cactus

Get a boogie baby
Get a boogie
Boogie!

I said I got myself an old lady
Her old words she could
She got an old tambourine, ah
In the neighbourhood
She was all so lazy
She don't know what to do
So I give her some rhythm baby
Moon

She said get your ribs rockin'
And you'll all so feel
You can't shake old thing all night
You just wait & see
She got all the moonshine
Get the good vibrations, oh
Oh baby
With the blues
Yeah

I wanna see you get it on, yeah
Just one more time
And we're gonna boogie some more
And it'll be alright
Are you ready
Are you ready
Are you ready
For some good old boogie n stuff
I said it came from way down under
Way down under
And when you get that flamethrower
You loose control
With the blues

Yeah
