

Feel so Good

Cactus

And outer galaxy, Alpha
Centauri
Feels good
I'm stranded on a spaceship
hideaway
And something makes me
think I'm here to stay
I'm so happy where I am
Feels good
I've journeyed to the other
atmospheres
And every breath I take just
makes it clear
I'm holding Heaven in my
hands
It's automatic baby and it
Feels good
When it feels so good
Feels good
When it feels so good
Feels good
These extra-sensory
sensations
Are causing me some
complications
Electrostatic information
Feels good
I'm playing with a pleasure
trafficker
Arriving soon intergalactica
I'm holding Heaven in my
hands
It's automatic baby and it
feels good
Feels good
Feels good
Feels good
Feels good
When it feels so good
Feels good
When it feels so good
Feels good
When it feels so good
Feels good
When it feels so good
Feels good
When it feels so good
Feels good
Feels so good
Feels so good
Feels so good
Feels good
Feels so good
Feels so good
Feels so good
Feels good
I'm stranded on a spaceship
hideaway
Feels good

When it feels so good
Feels good
When it feels so good
Feels good
When it feels so good
Feels good
When it feels so good
I'll fight for the Moon, Mars,
Jupiter
Feels good
When it feels so good
Feels good
When it feels so good
Feels good
When it feels so good
Feels good
When it feels so good
