

Emptiness

Cadaveria

We must not be afraid of emptiness
Emptiness in mind sets free, it's full of energy
Thought is afraid of loneliness
Thought is what creates fear
Thought is a danger

See pain for what it is
Do not escape it
Stay with the pain
Look at it
And you will see
There is an end to the pain
And after it
Passion comes like a burning fire

Emptiness in mind sets free
We must not be afraid of emptiness
Emptiness in mind sets free
We must not be afraid of emptiness

Observe without naming
Observe without the center
'Cause the center divides
The center is the censor

See pain for what it is
Do not escape it
Stay with the pain
Look at it
And you will see
There is an end to the pain
And after it
Passion comes like a burning fire

Cancel your ego
And you will find your beauty
Live to be born every day
To put an end to your pain

Emptiness in mind sets free
We must not be afraid of emptiness

Every day, every night
Put an end to pain and live of your freedom
Every day, every night
Strip your mind, rest in the absence of thought
Empty space, empty mind
Cancel your ego to find the true beauty
Empty space, empty mind
Silence your thought and be born every day
