

# My Vertigo

Caliban

Welcome to my - fragile paradise  
Where everything - is built to fall  
That's my demise

In my world I'm one the endless  
Everything turns upside down  
Tossing - turning - flying - falling  
Oh my god I'm losing ground

I'm so far away - I'm losing ground  
My Vertigo, My Vertigo  
I won't look back, with no regrets  
Just let me go - My Vertigo

Welcome to my - fragile paradise  
Where everything - is built to fall  
That's my demise

Shattering echoes - silent cries  
Delusive hope and hollow eyes  
These walls come tumbling down  
I'm gone - six feet underground

I'm so far away - I'm losing ground  
My Vertigo, My Vertigo  
I won't look back, with no regrets  
Just let me go - My Vertigo

I'm so far away - I'm losing ground  
My Vertigo, My Vertigo  
I won't look back, with no regrets  
Just let me go - My Vertigo

I'm so far away - I'm losing ground  
My Vertigo, My Vertigo  
I won't look back, with no regrets  
Just let me go - My Vertigo!!!!
