Cam: Yo Whaddup?

Matty: Ayo fuckstick you're late for the fucking studio, the songs suck. You need to step your whole fucking game up dude

Cam: Yo, I'll be there in like 5 minutes man shit

Matty: Yeah, whatever dawg

I told these motherfuckers they should wait up  
They steady keeping hate up  
A skinny motherfucker, I'm tryna get my weight up  
Balling like I'm Tony, Hawk up in this half pipe  
I'm blowing up like nukes but, fuck having a half life  
I'm living to the fullest, I'm sick of all the bullshit  
And, my YouTube hits will make you die, full clip  
I'm living in the ocean with palm tree's and shit  
Collecting F Words from all the fucks I should give  
I'm a fuck up I know  
That's why my teachers told me I should stop doing my thing  
They can blow me  
I ain't lonely, I'm just chilling trying buy my mom a purse  
Trying have a little fun before they throw me in a hearse, shit hearse  
I'm serious, it gets kinda delirious but, now I'm on fire  
Just like Dennis Leary is  
The first 48 tracks I make better make plaques  
Or I'm coming back to start over all this sick rap

I'm pushing 60 on the gas, hand on the ass  
And I'm living right now, just in case if it don't last  
Filling up my glass, Trying to live with class but  
These girls in my world trying to put me on blast  
But, I keep rolling (This is what dreams are made of) x4

I told, I told, I told, I told these motherfuckers that I ain't coming back  
With nothing less than a smash record and 20 mil in cash  
Matter fact make sure that all these people getting stacks  
Treat my joints like my check books they all be getting cash  
I'm a smash, looking like I did this for no reason  
If you knew just how I work, then you would see just how I'm teasing  
With these mix tape tracks going on and on and on  
What other kid at 17 would be signing deals, right out of his home  
Besides Bieber I got fever cause I'm hot up in this bitch  
Justin getting money dawg so I'm trying to get rich  
Driving 60 in the switch with my hand up on my bitch  
I'm just cruising making sure that I don't land up in no ditch  
That's a metaphor whore for my life Al Gore  
It's an inconvenient truth to be bored, I'm sure  
So I try to keep it real with all the people that I got  
Cause when I ball off I'm landing on the top

I'm pushing 60 on the gas, hand on the ass  
Living right now, just in case if it don't last  
Trying to live good like some new Chucks  
They asking if I'm down, tell em' look up

I'm pushing 60 on the gas, hand on the ass  
Living right now, just in case if it don't last  
Trying to live good like some new Chucks  
They asking if I'm down, tell em' look up

At the sky line, the sky line  
The sky line, the sky line
