

Real Love

Cam Meekins

Yeah yeah
Yeah yeah

Eh, ain't no living like us
All up in the club got these bitches lined up
Think I found myself real love
But I'm sipping so I don't know it's real yet

Eh, ain't no living like us
All up in the club got these bitches lined up
Think I found myself real love
But I'm sipping so I don't know it's real yet

She want champagne in her cup
Range Rove for a truck
Diamonds on her wrist
Topic down to strip
Movies bout her life
All the flashing lights
I just wanna ride
Me and you tonight

Cause ain't no living like us
All up in the club got these bitches lined up
Think I found myself real love
But I'm sipping so I don't know it's real yet

Cause ain't no living like us
All up in the club got these bitches lined up
Think I found myself real love
But I'm sipping so I don't know it's real yet

I got caught up in my feels like I didn't know the deal
So I just keep it light though she running through my mind
When we was in the whip she beside me
Staring at my wrists looking timely
Caught up with her and this a real love thing
Never left so this is still a love thing
100 racks at the mall
All her what she want in her life is a real baller

Eh, ain't no living like us
All up in the club got these bitches lined up
Think I found myself real love
But I'm sipping so I don't know it's real yet

Eh, ain't no living like us
All up in the club got these bitches lined up
Think I found myself real love
But I'm sipping so I don't know it's real yet
