

Up and Over

Cam Meekins

She got a smile like a goddess, love the way that she roll
She a Brooklin girl so she keep the [?]
I know she bad for the heart but she good for the soul
When you in love and you grind only one way to go
We goin' up and up and up and up and over
We goin' up and up and up and up and over
I know she bad for the heart but she good for the soul
She a Brooklin girl so she keep the [?]
We goin' up and up and up and up and over

This was the plan, I feel like the man
I get the advances right in my hand
This independent shit, I'm not even playin'
I'm in the finest whip, I'm not even sayin'
I made, fuck I'm faded a little
But I made it without you in the middle
Fuck the paparazzi takin' pictures
I'ma knock this sucker out, he looks suspicious
The Illuminati got me thinkin' different
Makin' [?] make a difference
[?] Scotty I was really pimpin'
Fire 50 I'm really whippin'
I'm a real fuckin' God, aside from livin'
Made me crazy, I'm hallucinatin'
Maybe I just need to settle down
Maybe I just need to make a statement
Face test doesn't make you cool
I never got good grades in school
Now my apartment got a pool
Now I don't have to follow rules
Me and my homies [?]
Every single day I gotta motivate
Sit and think about the love we had

She got a smile like a goddess, love the way that she roll
She a Brooklin girl so she keep the [?]
I know she bad for the heart but she good for the soul
When you in love and you grind only one way to go
We goin' up and up and up and up and over
We goin' up and up and up and up and over
I know she bad for the heart but she good for the soul
She a Brooklin girl so she keep the [?]
We goin' up and up and up and up and over

I was just sayin'
I'm not even playin'
I can see us on the beach and the sand
I just need trust and I'm reachin' my hand
I ain't even puffin' this weed in my hand
Give me the money, I'm shoppin' in France
I know that I'm gonna make you more
She says you fuck with my skateboard
I made a mil, ain't need more
I'm up and down like wakeboard
What you got that in the safe for
I think I'm havin' a breakdown
I need you back in my damn car

How did we let it get this far
We used to be so in love
When I forgot I [?]
Just tell all your people I said I love you

She got a smile like a goddess, love the way that she roll
She a Brooklin girl so she keep the [?]
I know she bad for the heart but she good for the soul
When you in love and you grind only one way to go
We goin' up and up and up and up and over
We goin' up and up and up and up and over
