

# Anything You Wanna Do

Cameo

Anything you wanna do you can do it  
If you just put your mind to it  
The light that guides will take its time  
So just keep on sticking to it

You shouldn't give a care about tomorrow  
All that's there is there - yeah  
Sometimes the past was full of sorrow  
But the past for sure won't get us anywhere

You can be sure that you're receiving  
The best life has to offer everyday, hey  
What will be will be what you want it to be  
It's you who controls your destiny, hey
