

# Butterfly

## Candlebox

All I know I see it, what for?  
All I know you see it, what for?  
Lies to, love to, feel it all  
What I've dropped to, and I  
Never see what I want  
Never see what I need  
Know it's for  
To die for, to die for,  
To die for, to die for

(Butterfly...)  
A simple change for me to  
(fly us home)  
In your life you'll feel it all  
(Butterfly...)  
Simple change for me to  
Anything free from heaven  
Simple change for me to  
Softer than softer  
All I

Well I fall, and I fall  
Every like I need  
Upon me place it all  
Everything is simple to, simple for me  
What I need

Some things matter,  
Some things they feel  
Set it for, to kill for,  
I set it for to kill for,  
Kill for you

(Butterfly...)  
Simple change for me to (fly us home...)  
In your life you'll feel it all  
(Butterfly...)  
Simple change for me to  
Anything you're free from  
Simple change for me to  
Softer than softer than anything  
My butterfly, anything, my butterfly  
Softer than anything  
My butterfly, softer than, and anything  
All I

Every life is taken, what for?  
And every life is taken, what for?  
You lie to, you love to, feel it all  
What I've dropped to, and I  
Never see what I want  
Never see what I need to kill for

Butterfly  
A simple change for me to  
(fly us home...)  
In your life now you feel it all

(Butterfly...)  
A simple change for me to  
Everything  
Now you're free from

Simple change for me to  
Softer than softer than anything  
You love to lie to  
You love  
You lie to  
You love to  
You lie to  
You love to  
You love to  
You love to  
You love to  
You lie to me
