

## Stand

## Candlebox

Hey is there something  
You've got on your mind  
Can you speak  
A bit louder  
Just wait listen close  
To these words and you'll find  
It gets harder  
To swallow their lies

Stay all they ask  
Is you follow them, fools  
Yes you've made it  
So far so you play  
Bring you friends  
To our party recruit  
It'll take you much further

O this is your way  
All your cunning destruction  
No we cannot stay  
We'll say fuck  
You consumption

If I stood for you  
And I bled for you  
Would you come and save me  
If we took a chance  
Did it all again  
Would you run away or stand

So you prey  
On the loneliest cubs  
In the zoo  
All the weak and unknowing  
Just clay you can mold  
And conform them the rules  
We must break the bad habits

O this is your way  
All your cunning destruction  
No we cannot stay  
We'll save fuck  
You consumption

If I stood for you  
And I bled  
For you would you come  
And save me  
If we took a chance  
Did it all again  
Would you run away or stand

If I stood for you  
And I bled for you  
Would you come and save me  
If we took a chance  
Did it all again

Would you run away or stand
