Dormant Bodies Bursting

Cannibal Corpse

Bodies are bursting apart Volcanic eruption of guts Exploding cadavers bring forth A bloodbath to torment all life

The sky and the earth are now tainted by blood Death is to blame for this enormous flood The bodies are bursting apart Volcanic eruption of guts

Detonate, polluted, pandemic
Unburied decedents that no longer die
Dispelled amok amongst sickness
The dead and living are one
When dormant bodies are bursting

The sky and the earth are now tainted by blood Death is to blame for this enormous flood The bodies are bursting apart Volcanic eruption of guts

Infernal, disaster, revulsion
Dormant bodies bursting

Bodies are bursting apart Volcanic eruption of guts Exploding cadavers bring forth A bloodbath to torment all life

The sky and the earth are now tainted by blood Death is to blame for this enormous flood The bodies are bursting apart Volcanic eruption of guts

Detonate, polluted, pandemic
