Capital Kings

You're here, I know You're with me  
I feel Your lightning in my veins  
No fear where we're going  
I'm speechless, words cannot explain

You take us higher than Everest  
Give us wings to touch the sky  
You're love it leaves us weightless  
You and I

You and I will live forever  
You and I will live forever

You're here, my heart is open  
Desperate I give You all I am  
So true, I can't deny it  
It's like an arrow to my chest

You take us higher than Everest  
Give us wings to touch the sky  
You're love it leaves us weightless  
You and I

You and I will live forever  
You and I will live forever

You and I will live forever  
Forever
