A Nice Cup Of Tea

Captain Sensible

When I awoke this morning
There was light all around the place
Get to the bathroom mirror
Can that sight really be my face?

Go downstairs, the sunshine glares Across the welcome mat Slippers on, must get along To where the action's at

And so the day breaks over motley cat and me I read the Sunday paper and have a nice cup of tea

And so into the kitchen Wondering what I did last night And open up the Corn Flakes

That they says nutra sheds delight

Rummage in the sink to find a plate It's almost clean
I think this is the worst state
That the kitchen's ever been

And so the day breaks over motley cat and me I read the Sunday paper and have a nice cup of tea

There's nothing wrong
And the kettle's on
I think I'll have a cup of tea
And it's OK
It's a lovely day
A lovely day for motley cat and me
