

## Jus' Tired

### Car Seat Headrest

I'm probably just tired  
I'll love you again in the morning  
I guess it was my fault  
I must've missed the warning

That's not what I meant  
You twisted the words right out of my mouth  
Do you remember  
What this was even about?

I'm probably just tired  
I'll love you again in the morning  
I guess it was my fault  
I must've missed the warning

I can't explain  
Just keep going round and round and round and round  
If you could see my brain  
See it pound and pound and pound and pound

I'm probably just tired  
I'll love you again in the morning  
I guess it was my fault  
I must've missed the warning

My heart can't take this  
Why are you trying to hurt me, if you love me, why are you hurting me  
so goddamn much?  
Honey if we keep fighting I won't ever get to sleep  
And if I never get to sleep, I'll never see the morning, I won't ever  
love you again

But if we get to sleep  
I'll sleep next to you

And honey if we ever get to sleep  
In the morning we will  
Rise  
Rise  
Rise

In that bright blessed morning  
Rise  
Rise  
Rise

Let's get to bed
