

# Bloody Good Bar Fight Song

Carbon Leaf

Everything is fine  
The spirit has to spill  
This blood must turn to wine  
Long before you're over the hill

Service to all the kings  
Falling down on their pride  
The lion's den hangs the crest  
Of a man too occupied

Everything was fine  
Until you bruised your way  
Into my life  
You're like one good bloody  
Bloody good bar-fight song  
Everything was fine  
Until you bruised your way  
Into my life  
You're one good bloody  
Bloody good bar-fight song  
One good bloody  
Bloody good bar-fight song

Everything you have  
Is all you've ever known  
Hang up the golden gloves  
Time to claw down to the bone

Serve it up to swill  
Til everything you have begins to spill  
One is all you need  
And all you need is life to sing along

Everything was fine  
Until you bruised your way  
Into my life  
You're like one good bloody  
Bloody good bar-fight song  
Everything was fine  
Until you bruised your way  
Into my life  
One good bloody  
Bloody good bar-fight song  
One good bloody  
Bloody good bar-fight song

Everything was fine  
Until you bruised your way  
Into my life  
You're one good bloody  
Bloody good bar-fight song  
Everything was fine  
Just a few broken bones  
Then the teeth begin to fly  
One good bloody  
Bloody good bar-fight song  
One good bloody

Bloody good bar-fight song  
One good bloody  
Bloody good bar-fight song
