

# Condemned To Decay

Carnifex

This is a hell that I've embraced  
I don't mourn for the dead  
I envy their fate

You die, you turn to dust  
The light grows dark  
No spark from your heart  
This is the end  
I can count on my hands  
The dream you've killed

I will crush you with words  
I'll make you feel the depth of my hurt  
Trapped alone in the past (left to die)  
In peace at last

Look me in the face  
Lies with every breath you take  
Look me in the eyes  
This is me screaming goodbye

If you're hearing these words and I am no longer here  
Just know that death was never one of my fears  
If these are my last words and they're bringing you to tears  
My destination is unknown  
Anywhere is better than here

I am too much hate for one heart (destroyer of worlds)  
I sold my soul and died in the dark (condemned to decay)  
I am too much hate for one heart  
Condemned to decay
