

Dead Archetype

Carnifex

I am the soul of a nameless machine. I
Can only breathe, I can only breed, I can
Only bleed. Bleed out over her wishing
It was me.

It's a joke played by God on you and me.
A cruel act of divinity. Only dream of
Winters dead leaves. Falling from
Trees, falling on me. Hanging three
Feet from the Earth that I can't seem to
Leave. This hurts, this hurts. All I can
Do is dream of her. This hurts, this
Hurts. All I can do is bleed with her.
This hurts.

First I'll slit your throat and let you
Bleed out. Then I'll use a knife to carve
Your eyes out. (2x)

Everyone missing our last laugh, just
Broken hearts and shattered glass.
Just two ghosts from the past
Screaming love songs. Hung by your
Words, they wore me down. I'm swimming
Out to sea and I don't want to be found.

Which one of you?
Tried to save me.
Which one of you?
Tried to stop me
Which one of you?
Which one of you?

I am the soul of a nameless machine. I
Can only breathe, I can only breed, I can
Only bleed. Bleed out over her wishing
It was me.

It's a joke played by God on you and me.
