

When I Close My Eyes

Carola

When I close my eyes
I can still recall the time
I just close my eyes
And turn turning out the light
Darkness brings you back in sight

Why did you have to go
Will memories of the time
Show up in a dream that won't come true

Things we used to do will make me
Dream of you through the night
Till darkness turns into light
How can I hide my tears when I cry?
I just close my eyes
I just close my eyes

When I close my eyes
I hear your voice call my name
I just close my eyes
And try, try to hear again
Deep inside your words remain

And now when you are gone
Three words that left my life
I only use them when I write a song

Words we used to say
Words we used to say will make me
Dream of you through the night
Till darkness turns into light
How can I hide my tears when I cry?
Dream of you tonight
Until darkness turns into light
How can I hide my tears when I cry?
I just close my eyes
I just close my eyes
