

Take This Rope

Carousel Kings

Take this rope, put yourself above ...
Cause nothing can stop us now
Nothing can stop us now

I've seen faces change in ... modes
If I still won't make
I will never forget you
If we fight this off, or we will strive
Forever by your side, I will never forget you

Now I know, I never told you this before
Thank you for giving me strength, to go on

I've seen faces change in ... modes
If I still won't make
I will never forget you
If we fight this off, or we will strive
Forever by your side, I will never forget you
Whoa, oh, get up and run!
Get off and run, won't you all ...
In terror, you're ... return

We've been through pages and pages of luck, I know
We'll find a way somehow, some day
To say this, please say this
And roll again with me
Evacuate, promise emergency
We've been through pages and pages of luck, I know
We'll find a way somehow, some day
To say this, please say this
And roll again with me
Evacuate, promise emergency

I've seen faces change in ... modes
If I still won't make
I will never forget you
If we fight this off, or we will strive
Forever by your side, I will never forget you.
