

# Faster Ride

Cartel

A green light, unkind  
No where to go on a one track mind  
It's a break down at the wrong time  
I'm catching up but I'm still behind

We did it right, we did it right for some time  
But I looked up and you were gone  
We did it right, we did it right for some time  
I couldn't give you what you want

Cause you just want to take a faster ride  
Lower lows, higher highs  
Get it, get it, go until you get it right  
And I hope you find it  
Cause you just want to take a faster ride  
Lower lows, higher highs  
But you just got to kiss me one more time  
So just kiss me goodbye

A red light, wrong way  
I'm just a game that you like to play  
It's a hot start to your cold ways  
You got bored then you walked away

You did it right, you did it right for some time  
But I looked up and you were gone  
You did it right, you did it right for some time  
I couldn't give you what you want

Cause you just want to take a faster ride  
Lower lows, higher highs  
Get it, get it, go until you get it right  
And I hope you find it  
Cause you just want to take a faster ride  
Lower lows, higher highs  
But you just got to kiss me one more time  
So just kiss me goodbye

So now you're moving on (you're moving on)  
With no regrets (with no regrets)  
But I'm still hanging on (still hanging on)  
To every word you said (to every word you said)

But you just want to take a faster ride  
Lower lows, higher highs  
Get it, get it, go until you get it right  
But you'll never find it, no

Cause you just want to take a faster ride  
Lower lows, higher highs  
Get it, get it, go until you get it right  
And I hope you find it  
Cause you just want to take a faster ride  
Lower lows, higher highs  
But you just got to kiss me one more time  
Just kiss me goodbye

So just kiss me goodbye
