

# Maybe

## Case

I done spent to many nights out on the road  
I done sent too many girls home in the cold  
I'm a heart breaker for hire, part time liar  
Full time heathen, why am I breathing?  
You said you love me, you tried to care for me  
Why would you love me, am I the man for you?  
For you

Mama always told me you would meet the one  
Treat her like a queen son  
You don't want to be alone in the night time  
When the memories come  
When you gotta face the pain  
Remember what it felt like  
The first time you kissed, the first time you loved  
I done spent to many nights and now I'm all alone

If I said maybe tell me you love me  
Maybe we could try again  
If there's another maybe inside you  
I would never cheat again  
Cause every day, every day  
I've been lonely without you baby  
And I don't want to face the sun  
Without my sunset, sunset

I should have known you were feeling down  
I'm a soldier now  
Here to face the pain, I can't run away  
I can't turn away, hard to face each day  
Tell me why did you love me, why did you care for me  
Mama said you were the one  
How could I do it all for you?  
For you, for you, yeah you

If I said maybe tell me you love me  
Maybe we could try again  
If there's another maybe inside you  
I would never cheat again  
Cause every day, every day  
I've been lonely without you baby  
And I don't want to face the sun  
Without my sunset, sunset

If I said maybe tell me you love me  
Maybe we could try again  
If there's another maybe inside you  
I would never cheat again  
Cause every day, every day  
I've been lonely without you baby  
And I don't want to face the sun  
Without my sunset, sunset

I heard this so many times before  
Was this enough? I can't take anymore  
You really had me, baby  
I tried to keep walking out that door

But you keep pulling me back in
